I am a versatile and highly skilled software engineer with over six years of experience in international environments as a software engineer. Proficient in crafting complex queries, stored procedures, and functions, I have a proven track record of managing intricate schedules, handling key administrative tasks, and fostering seamless communication across culturally diverse teams. Fluent in English and Russian.

WORK EXPERIENCE

Salymbekov University, International College of IT and Business
Role - Head of Information Technology Department

02/2024 - Present *Bishkek, Kyrgyzstan*

The International College of IT and Business at Salymbekov University provides cutting-edge education with state-of-the-art facilities. Our bilingual programs prepare students to excel in the global workforce and become future leaders in IT and business.

Zentrek Technologies Sdn
Role - Senior software engineer

10/2019 - 07/2023 *Penang, Malaysia*

PROJECTS

TechMakers
https://www.techmakers.com.my/

Developed a full-featured e-commerce platform for an electronic components store, focusing on user experience, efficient order management, and secure payment integration. Enhanced the company's online presence and sales through a seamless, responsive design and robust back-end development.

UI/UX designs
https://codepen.io/Mirlan_Nurbekov

A showcase of UI/UX design projects highlighting creativity, technical skill, and a user-centric approach. Featuring interactive elements, animations, and responsive layouts crafted with HTML, CSS, and JavaScript.

FlowchartAdventure
https://github.com/MirlanNurbekov/303COM-FlowchartAdventure

Developed an educational 2.5D game in Unity designed to teach programming concepts to university students through interactive gameplay, combining entertainment with hands-on learning to enhance their understanding of key principles.
